

Door Frames

Our range of Brodie fire rated metal door frames are available to suit a variety of applications in masonry, stud plasterboard partitions, CSR Hebel or Rapidwall wall systems for fire ratings up to 4 hours. Standard door frames for E-Core Commercial Maxi Fire Doors are 1.4 mm thick zincanneal mild steel and are supplied as a complete unit with welded corner construction.

In addition, Trafalgar supplies a range of timber door frames. Our hardwood door frames and select quality veneered doors have been specially designed to achieve a 1 hour fire resisting door with aesthetic properties.

For further information on metal or timber door frames, contact your local Trafalgar sales office.
